Dear Editor:

I hope and pray that we take notice of what is happening out of the news, and the role of what we are allowing to happen out of the news. Many Coasties of any era in which we served considered that our service was a career and that we were in the armed forces, and that the veterans were proud of what we did and what we would do again. It is now clear that our country is changing. Some signs are very positive, such as the American people having a quiet, strong voice, and the White House now having a strategic plan to get the country moving again. There is a great deal of change in the world, and we must all be prepared to adapt to it.

The choice between what we do and what we can do is not an easy one. But it is a choice we must make, and we must make it now.

Sincerely,
