Lake Chatuge.

"We hope the citizens of Towns County and neighboring counties will attend this lively event," Hopf said.

The gates will open up at the Georgia Mountain Fairgrounds on Friday and Saturday.

You will not want to miss the opportunity to see all the cars on display as there will be a huge "Automotive Midway" with top name parts vendors, as well a huge used parts swap meet.

If your looking to buy or sell a classic car, don't miss the

Car Corral.

There will be several special guests including Dennis Gage of Speed TV and Linda Vaughn, Miss Hurst Golden Shifter. Vaughn is flying in from California to be a part of the action.

Friday night the fun continues with a Cruiz-In Parade from the Fairgrounds to the Downtown Square in Hiawassee for a Cruiz-In street dance with live entertainment featuring King Fish Blue.

Come on out and get ready to have some good oldfashioned fun

Hugh ...continued from page 1A

88 years old.

His death marks the end of an iconic local business career that included bringing Towns County its largest employer along with 250 jobs.

At the time of his death, Hoodenpyle was tireless in his efforts to bring industry back to Towns County to ease the local unemployment crisis and springboard an economic revival for local businesses.

Until the end, Hoodenpyle was Towns County's biggest fan.

"Hugh had a big heart in wanting to help his fellow man," said Towns County Sole Commissioner and longtime Hoodenpyle friend Bill Kendall. "At the time I began my career in teaching and coaching, Hugh came to me about coaching in a little league baseball program he envisioned for Towns County's youth.

"He unified the business community with funding and community support for a successful program which touched and enhanced many of Towns County's youth and did the same thing for a basketball program for our boys and girls," Kendall said. "He had the biggest heart in Towns County,'

about me co-coordinating his Towns County campaign for U. S. Congress," Kendall said. "I had to decline since I had a race of my own but recommended Hugh Hoodenpyle.

"Hugh accepted and was a trusted friend and supporter throughout Nathan's political career," Kendall said. "Gov. Nathan Deal dropped his appointments and busy schedule to show his mutual friendship at Hugh's funeral on Saturday."

Hoodenpyle came to Towns County in 1953. He quickly became a successful businessman, including building and operating Hiawassee Super Market until 1985.

He also developed Bell Air Estates, and developed the Hiawassee Antique Mall.

He also was responsible for recruiting American Weavers, Fred's and the Huddle House to Towns County.

As a member of the Hiawassee City Council, Hoodenpyle served under eight mayors, and served many years as the city's Mayor Pro Tem.

The appreciation of his business sense was evident as he served on numerous Congressional, county and city boards and regional study committees.

"Hugh Hoodenpyle was

small as Towns County, teachers have the opportunity to familiarize themselves on a more personal level than in larger school systems. Towns County is fortunate to have a school system that regards their students' learning and achievement as its number one priority as evidenced by CRCT scores, EOCT scores, and graduation rate.

Towns County School principals have been working behind the scenes most of the summer in preparation of the 2012-2013 school year.

Towns County High School Principal Roy Perren is always excited to see the return of students to the high school setting.

"It's always a special time when the school year begins," Perren said. "I am looking forward to seeing the students return and watching them grow, progress, and work toward their number one goal, graduating.

'This is the beginning of a new chapter in their lives and for many the end of an era as they start preparing themselves for post-secondary choices whether it be college, vocational-technical schools, the military, or preparation for en-

"I am excited about this upcoming year," Dr. Page said. The student curriculum has changed to the Common Core Standards which are shared by most of the states. Our focus at the elementary school this year is math and science integrated with reading and writing. Getting kids interested in areas that will possibly be a career for them when they become an adult is a top priority.

Dr. Berrong was equally vocal regarding the middle school students.

"We are extremely excited here at TCMS for school to start," he said. "We have an excellent group of returning seventh and eighth graders and we are looking forward to meeting our new upcoming sixth graders.

It's always encouraging to see this kind of passion and excitement from the schools regarding opening day and the return of students to the classroom setting.

facilities for staging areas and command post locations.

"A critique of the incident will be held Aug. 14th so that all participants will have an opportunity to discuss the lessons learned and share their thoughts on areas that can be improved to enhance the efficiency of our response," said Floyd.

BOE approves agricultural education plan for FY2013

By Libby Shook **Towns County Herald** libby.tcherald@windstream.net

If zipping across, or just above, the waters of North Georgia and North Carolina while strapped to a wing seems like a good time, then a day at the Ridges & Marina Resort on Lake Chatuge should be a part of your plans Thursday through Sunday.

That's when the Eighth Annual Georgia Mountain Fly-In will be showcasing many of the world's best sit-down hydrofoil athletes as they come together to show off the latest tricks, entertain the thousands of visitors that will show up to watch, and teach the sport to anyone interested in learning how it's done.

The Ridges will be really the hot spot to be as the Fly-In will kick off on the same day as the Georgia Moonshine Cruiz-In Haulin' Mash Bash on Thursday.

You are definitely in for a double whammy of a treat.

For those of you not familiar with the sport of sitdown hydrofoiling, you owe it to yourself and your family to come out and participate or just enjoy watching as the well-trained athletes show you how it's done.

Sit-down hydrofoiling is a relatively new sport in which riders are strapped in a seated position on a board atop a hydrofoil wing and towed by a ski boat.

As the rider gathers speed, the hydrofoil acts as a wing in the water and lifts the board and the rider a foot or more above the surface of the lake.

"They break world records while they're here,"

Hydrofoiling comes back to Lake Chatuge for the eighth consecutive year at the Ridges Resort & Marina this weekend. It's here Thursday through Sunday.

said Ridges' Marketing Director Cindy Lynd. "We are real excited to be able to bring this spectacular show back to Towns County year after year. If you've never witnessed hydrofoiling, you owe it to yourself to come out and see what it's all about. It really is very impressive to watch.

Those who want to catch the action from the side of the lake can watch for free, but if you want to get up close and personal and want to experience

this phenomenon for yourself, it will cost \$60.

But you will be getting a lot of bang for your buck as this covers the cost for the training, fuel for the boat, and dinner Saturday night.

"In addition to teaching the sport to newcomers, the more experienced riders will show off their skills with flips and spins out of the water. A 'big-air' competition also is planned to see who can jump his or her board the farthest out the water," said event organizer Captain Cliff Woodman who is no stranger to the Ridges as he has been involved with this event for many years.

Woodman looks forward, once again, to helping people fully experience this sport, although he warns, "once you try hydrofoiling, it's very difficult to give up.

"We tell people when we take them out, 'Don't ride one unless you plan on buying one.7 It's that addictive," he said.
