NO () Shall the Constitution of Georgia be amended to allow state or local approval of public charter schools upon the request of local communities?"

This proposal authorizes the General Assembly to provide by law for the creation of public state charter schools, which would operate under the terms of charters between the State Board of Education and charter petitioners, while preserving the authority of local boards of education to establish local charter schools. Specifical-ly, the proposal clarifies the authority of the General Assembly to provide for state-wide policies for public education prior to the college or post-secondary level, restates the authority of the General Assembly to establish special schools, prohibits the incurrence of bonded indebtedness or the levy of school taxes for the support of special schools without approval of the local board of education and the voters in the af-fected school system, provides that special

include public state charter schools, pre-serves the authority of local boards of edu-cation to establish local charter schools, authorizes the expenditure of state funds for special schools, and prohibits the deduction of certain state funds from local school districts as a direct result or con-sequence of the enrollment of students in

state charter schools. The General Assembly has enacted a law to exercise the authority granted by the proposed constitutional amendment to provide for public state charter schools. This law will become effective only if the constitutional amendment is ratified by the voters. This law is published at Georgia Laws 2012, p. 1298, Sec. 1, and was enacted by 2012 HB 797, Act No. 766.

A copy of this entire proposed constitution-al amendment is on file in the office of the judge of the probate court and is available for public inspection.
